

# Edge Form Bracket - Type 1

Build and reconfigure tilt-up panel forms more quickly with this reusable bracket

Stop cutting lumber blocks for bracing and start forming faster with the reusable Edge Form Bracket.

Edge Form Brackets are available in 5" and 7" heights to brace the standard lumber dimensions typically used for tilt-up panel forms. The top of the brackets sit just below the overall form height so they do not interfere with concrete screeding or finishing.

Both sizes of the Edge Form Bracket have a 5"x6" adhesive base for slab attachment and three nail holes in the upright for form attachment. Once positioned, the base can be glued or anchored to the concrete floor.

The one-piece plastic design is molded with a triangular-shaped center strut to support the tilt-up panel edge form during concrete placement.

Once the tilt-up panel forming is complete, all the Edge Form Brackets are removed and saved for reuse on the next project.

Edge Form Brackets (Type 1) are available in 5" and 7" heights to brace the standard lumber dimensions typically used for tilt-up panel forms.

Edge Form Bracket - Type 1	
Part No.	Description
SBEFBT15	Edge Form Bracket 5" (Black) 60/box
SBEFBT15SP	Edge Form Bracket 5" wSticky Pad (Black) 60/box
SBEFBT17	Edge Form Bracket 7" (White) 60/box
SBEFBT17SP	Edge Form Bracket 7" wSticky Pad (White) 60/box
SBGD2111	Sticky Pad 5-1/4"x6-1/4" 300/box
SBGD1111	Spray Adhesive - Std Nozzle 14oz Can 12/box
SBGD1121	Spray Adhesive - Invert Nozzle 14oz Can 12/box

Edge Form Bracket can be reused with Sticky Pad replacement or Spray Adhesive (approx 60 brackets per can) option.

Peel off the film to expose the Sticky Pad adhesive base.
